# THE INSPECTION REPORT LEGEND & INTRODUCTION PAGE

## THE BRACKETED NUMBERS ARE DEFINED AS FOLLOWS:

- (1) Recommended evaluation by a Licensed Structural Engineer / Geo-Technical Engineer.
- (2) Recommend evaluation or repairs by a Qualified Licensed Contractor / Specialty Trades Person.
- (3) Recommend evaluation of infestation / deterioration by a Licensed Pest Inspector.
- (4) Recommend evaluation / testing by a Licensed / Certified Environmental Contractor / Specialist.
- (5) Recommend upgrading for Health / Safety / Function / Efficiency enhancement.
- (6) Additions / Alterations to this item or system noted, unable to determine if this was done with any required permits or by a Qualified Licensed Contractor / Specialty Trades Person.

Note: Most of the time the deficiency will just be noted. If it is a Possible Safety Hazard it will be noted. I always recommend a licensed professional in the related field do examinations & or repairs.

Anytime these statements: Appears to be mold or mildew type substance, mold/mildew is visible are used, mold may be a health & or safety issue & need further inspection & or remediation by a specialist.

The term "**Satisfactory/Functional**" or "**Appears Satisfactory/Functional**" Is used to identify an item or component that was found to be functionally usable at the time of the Property Inspection. Normal wear & tear is not noted.

## THE PURPOSE OF THE PROPERTY INSPECTION

The Property Inspection is a Non-Invasive physical examination designed to identify material defects in the systems / structures / components of the building as they exist at the time of The Property Inspection.

The Property Inspection is limited to those systems / structures / components that are present & accessible.

Components / Systems shall be operated with normal user controls only & as conditions permit.

The Inspection Report may contain recommendations for evaluations / testing / repairs / upgrades / inquiries or comments about an item or condition that should be brought to the Client(s) attention.

## THE PROPERTY INSPECTION OUTLINE

The Client(s) are invited & encouraged to accompany the Property Inspector during The Property Inspection process.

When completed, The Property Inspection will be reviewed on site, assuming the Client(s) are present.

The Report identifies separate areas, such as Electrical / Plumbing / Heating / Roof / Bathrooms, etc.

If The Client(s) have any Questions / Comments, Please Call The Inspector As Soon As Possible.

The Inspector works solely for the Client(s), not the Agents or Sellers.

The Inspector has no vested interest in whether or not The Property purchase is completed.

The Inspector does not perform repairs / referrals for repairs, to Prevent a Conflict of Interest.

The Inspection Report is not a Warranty or Guarantee of any kind. If a Home Warranty is not provided by the Sellers, Agents or Others. The Client(s) are is strongly advised to obtain one.

The use of the Inspection Report is authorized for the sole use of The Client(s) identified on The Contract.

The Inspector / Inspection Company has no contractual obligations or fiduciary responsibility to any third parties / agents / future purchasers or any other persons that may come into possession of The Inspection Report.

By initialing below the Client(s) or Client(s) Real Estate Agent / Representative, acknowledges reading & understanding the Inspection Report Legend / The Purpose of the Inspection / The Inspection Outline / The Report Summary and The Inspection Report Contract, including The Standards of Practice.

Client Initials. \_\_\_\_\_ Date. \_\_\_\_\_ Client Initials. \_\_\_\_\_ Date. \_\_\_\_\_

Initials of Client(s) Real Estate Agent / Representative only if client(s) are not able to attend the inspection.

Initials of Client(s) Real Estate Agent / Representative. \_\_\_\_\_ Date. \_\_\_\_\_

## FOUNDATION / STRUCTURE:

**NOTICE:** The visible portions of the foundation / structure were observed to determine their condition at the time of inspection. The condition of foundations / slabs / subfloors not visible due to carpet / floor coverings cannot be determined. The wall surfaces or design configuration of the structure often prevents access to visually verify the presence or condition of anchor bolts. If any foundation damage / deterioration / infestation is reported the client is strongly advised to obtain the services of a qualified licensed structural engineer / Geotechnical engineer / termite / pest inspector & consider any recommendations for repair / replacement / treatment prior to the close of escrow. Associated items / components that are concealed from view / inaccessible at the time of inspection are excluded from this report.

**The Following Items / Components & Associated Features Present At The Time Of Inspection Were Found To Be In Satisfactory Condition Unless Noted Below.**

<b>FOUNDATION TYPE</b>	Slab- Poured Concrete
<b>UNDER FLOOR ACCESS</b>	N/a-
<b>UNDER FLOOR VENTILATION</b>	N/a
<b>STRUCTURE TYPE</b>	Single Family Home & Cross Braced / Blocked
<b>FLOOR FRAMING</b>	Not Visible- Concrete
<b>VAPOR RETARDER</b>	Not Visible
<b>INSULATION</b>	Located At: Type Is:
<b>BEAMS &amp; PIERS</b>	Type Is: Type Is:

**Recommendations For Evaluations / Repairs / Upgrades / Inquiries & Comments Noted Below.**

View from Street

Slab was not visible due to carpet / floor coverings. Does not appear to be cause for concern at the time of inspection.  
FOUNDATION: Has typical cracks. This part of the inspection do to floor coverings, wall covering, ect. that obstruct the visibility of the structure itself. Appears to be ok at time of inspection.

**Some signs of what appears to be mildew/mold on exposed surface of concrete basement walls from moisture seepage through stone/concrete/block. This is common with many homes of this era & does not appear to be a concern at the time of inspection.**

**FOUNDATION: Has typical cracks. This part of the inspection do to floor coverings, wall covering, ect. that obstruct the visibility of the structure itself. Appears to be ok at time of inspection.**

### REPORT LEGEND

- (1) Recommended evaluation by a Licensed Structural Engineer / Geo-Technical Engineer.
- (2) Recommend evaluation or repairs by a Qualified Licensed Contractor / Specialty Trades Person.
- (3) Recommend evaluation of Infestation / Deterioration by a Licensed Pest Inspector.
- (4) Recommend evaluation / testing by a Licensed / Certified Environmental Contractor / Specialist.
- (5) Recommend upgrading for Health / Safety / Function / Efficiency Enhancement.
- (6) Additions / Alterations to this item or system noted, unable to determine if this was done with any required permits or by a Qualified Licensed Contractor / Specialty Trades Person.

Inspector: Inspectors Name

## EXTERIOR:

**NOTICE:** The visible portions of the exterior surfaces / trim were observed to determine their condition at the time of inspection. Destructive testing of exterior wood surfaces / trim to determine the presence of any deterioration / infestation is beyond the scope of this report. Damaged / infested areas reported should be repaired / treated by appropriate specialist. The routine maintenance of door & window frames is required to prevent damage / leaks. The client is strongly advised to obtain & review the termite / pest report & consider any recommendations for repair / treatment of the property prior to the close of escrow. Associated items / components that are concealed from view / inaccessible at the time of inspection are excluded from this report.

**The Following Items / Components & Associated Features Present At The Time Of Inspection Were Found To Be In Satisfactory Condition Unless Noted Below.**

**EXTERIOR SURFACES** Type:

**TRIM** Type:

**SURFACE GRADE** Acceptable- See Comments

**DRIVEWAYS / SIDEWALKS** Concrete Stairs Are: Concrete

**EXTERIOR DOORS** Wood & Sliding Glass Doors Hose Bibs Are: functional

**WINDOWS MAT./PLANT LIFE** Vinyl- Dual Pane Glass Needs Trimming-see Comments

**PATIOS / PORCHES** Concrete Porch('s)- Retaining Wall Is Block

**FENCES & GATES** Chain Link- Retaining Wall Drainage Is Not Visible

**SOIL CONDITION:** Soil Condition: Good

**Recommendations For Evaluations / Repairs / Upgrades / Inquiries & Comments Noted Below.**

Front Light Bulb missing

Front Light Bulb missing

Water Damage At: Rear Gate,  
Gate loose will not open.

View of Exterior railing opening  
7-8 inch

**Note:** Hose bibs not tested in winter months. Be sure to check for leaks when turning these on in the spring. If they are frozen & damaged they will typically leak in basement rafter area when or or directly behind siding.

Rear Gate and Fence Damaged and leaning, at end of life, Noted Earth to wood contact. (2) See Photo # 3

Front Light Cover Missing See Photo # 1, 2

Surface Grade: It appears that the soil may have settled towards the house in some locations. Backfill/regrade the soil around the foundations so that there are no low spots in the soil around the home to minimize foundation & basement moisture.

Unable to fully evaluate exterior, grounds, and drainage components due to the presence of frozen ground, snow, & ice.

**Patio / Porch / Balcony:** Railing spacing exceeds 4 inch maximum required in new construction. Recommend upgrading to provide enhanced safety for children / pets. (5) See Photo # 16

### REPORT LEGEND

- (1) Recommended evaluation by a Licensed Structural Engineer / Geo-Technical Engineer.
- (2) Recommend evaluation or repairs by a Qualified Licensed Contractor / Specialty Trades Person.
- (3) Recommend evaluation of Infestation / Deterioration by a Licensed Pest Inspector.
- (4) Recommend evaluation / testing by a Licensed / Certified Environmental Contractor / Specialist.
- (5) Recommend upgrading for Health / Safety / Function / Efficiency Enhancement.
- (6) Additions / Alterations to this item or system noted, unable to determine if this was done with any required permits or by a Qualified Licensed Contractor / Specialty Trades Person.

## ROOF / ATTIC:

**NOTICE:** The visible portions of the roof / roof penetrations / flashings & attic space were observed to determine their condition at the time of inspection. Roofs will only be inspected by walking on their surfaces if reasonably accessible / if doing so will not cause any damage to the roof / endanger the inspector. Reporting if a roof has an active leak is not possible unless the leak is observed at the time of inspection. Reporting remaining life expectancy / predicting future roof leaks is beyond the scope of this report. If damaged / deteriorated / missing areas are reported the client is advised to obtain the services of a qualified licensed roofing contractor for further evaluation prior to the close of escrow. The testing of gutters / down spouts / underground drains is beyond the scope of this report. Associated items / components that are concealed from view / inaccessible at the time of inspection are excluded from this report.

**The Following Items / Components & Associated Features Present At The Time Of Inspection Were Found To Be In Satisfactory Condition Unless Noted Below.**

<b>ROOF MATERIAL/VALLYS</b>	Comp Shingle
<b>ROOF SHEATHING</b>	Material Is: Plywood
<b>ATTIC / ROOF FRAMING</b>	Pre-fab Truss System Vapor Barrier
<b>ATTIC ACCESS &amp; LOCATION</b>	Limited-see Comments Below Located At:
<b>ATTIC INSULATION</b>	Acceptable- Roll Fiberglass?
<b>ATTIC VENTILATION</b>	Gable & Soffit
<b>FLASHINGS</b>	Appear Acceptable & Chimneys & Roof Edges
<b>GUTTERS / DOWNSPOUTS</b>	Refer To Comments Below- Refer To Comments Below
<b>SKYLIGHTS/KITCHEN &amp; BATH</b>	Appear Acceptable- Bathroom Roof Vents ( If Present) Shingles

### Recommendations For Evaluations / Repairs / Upgrades / Inquiries & Comments Noted Below.

Shingles need secured & sealed at one or more locations.

Shingles showing signs of weathering & age.

Shingles showing signs of weathering & age.

Gutters Damaged and lose.

Main Roof: Recommend removal of vegetation from eaves / roof surfaces / edges. (2)

Main Roof: Deteriorated / damaged shingles. (2)

Main Roof: Recommend removal of vegetation from eaves / roof surfaces / edges. (2)

Gutters / Downspouts: Loose / damaged / missing gutters / downspouts noted at: Several Areas, See Photos 28

**Downspouts: No gutter system provided. At Rear and Sides of RoofClient should consider installing gutters & properly directed downspouts as an to help prevent flooding / property damage. (5)**

### REPORT LEGEND

Inspection Date: July 12, 2012

Inspector: Inspectors Name

## HEATING / COOLING

**NOTICE:** The visible portions of the heating / cooling units, associated electrical / gas connections, vents, ducting & filters were observed to determine their condition at the time of inspection. Heating / cooling systems are tested by operating normal controls / thermostats to verify proper function. Checking for cracks / damage to heat exchangers & dismantling the components of heating / cooling systems is beyond the scope of this report. Heating / cooling systems found shut off / that have shut off pilots will not be tested & pilots will not be lighted. Heating / cooling systems are not evaluated for efficiency or adequacy. Thermostats are not checked for calibration / timer functions. Some makes / models of horizontal gas heaters are involved in a safety recall, this determination requires the services of a qualified licensed heating contractor / specialist. Associated items / components that are concealed from view / inaccessible at the time of inspection are excluded from this report.

### The Following Items / Components & Associated Features Present At The Time Of Inspection Were Found To Be In Satisfactory Condition Unless Noted Below.

<b>PRIMARY HEATING SYSTEM</b>	Forced Air Natural Gas Located At The Hall
<b>THERMOSTATS / CONTROLS</b>	Located At & The Hall
<b>DUCTING</b>	Metal & Insulated Flex- With Fiberglass Insulated Covering
<b>VENTING / COMBUSTION AIR</b>	Metal Vent & Vent Cap
<b>AIR FILTERS</b>	Disposable Type Furnace Age Is Approx.10 Years Old
<b>CENTRAL AIR CONDITIONING</b>	Located At Exterior- Ac Age Is 10 Years
<b>HEATING BRAND IS:</b>	Model # 5565 Serial # 26667
<b>AC BRAND IS:</b>	Model # 27777 Serial # 2777
<b>Heating A/C Title 13</b>	

### Recommendations For Evaluations / Repairs / Upgrades / Inquiries & Comments Noted Below.

Heating: Gas meter was shut off at the time of the inspection. Unable to test gas appliances. The Gas Company should be contacted to turn on the gas / light pilots & check the gas appliances.

Venting: No Functional / Mechanical Defects Found To Report At The Time Of Inspection.

Combustion Air: No Functional / Mechanical Defects Found To Report At The Time Of Inspection.

Thermostats / Controls: No Functional / Mechanical Defects Found To Report At The Time Of Inspection.

Ducting: No Functional / Mechanical Defects Found To Report At The Time Of Inspection.

Cooling: Unable to evaluate air conditioning system due to outdoor ambient air temperature being below 60 degrees. It should be at least 60 degrees for 24 hrs prior to home inspection. Operating below this temperature can damage air conditioning compressor.

### REPORT LEGEND

- (1) Recommended evaluation by a Licensed Structural Engineer / Geo-Technical Engineer.
- (2) Recommend evaluation or repairs by a Qualified Licensed Contractor / Specialty Trades Person.
- (3) Recommend evaluation of Infestation / Deterioration by a Licensed Pest Inspector.
- (4) Recommend evaluation / testing by a Licensed / Certified Environmental Contractor / Specialist.
- (5) Recommend upgrading for Health / Safety / Function / Efficiency Enhancement.
- (6) Additions / Alterations to this item or system noted, unable to determine if this was done with any required permits or by a Qualified Licensed Contractor / Specialty Trades Person.
